"The Nutrition Story of a College Campus"

A data-driven journey through student life, habits, and health.

The journey begins by understanding the gender demographics of the student participants. A bar/pie chart reveals a slightly higher proportion of female students.

We then examine students' academic performance. A histogram shows that most students have GPAs clustered around the 3.0 to 3.5 range, with few outliers on both

Breakfast Consumption
Are students fueling their day w
